PROFESSIONAL PROFILE

Since I was little I have been very interested in the tech world and I really want to continue learning every day. Recently graduated from the Universitat Politècnica de Catalunya (UPC) as a **software engineer**. I have experience working on both academic and personal projects with fullstack technologies, although I am currently looking forward to working as a **frontend developer**. I consider myself a very **versatile** and **proactive** person, and I am always open to new challenges to learn from.

HARD SKILLS

During my degree, I had the opportunity to **work** in **teams** with more than 5 people and develop several projects using different techologies. I practised **agile methologies** and other techinques like **pair programming** or **TDD**. Thanks to the knowledge I adquired, I was able to get the **highest mark** and honors in the **final degree project**, which consisted in a fullstack website application.

TECH SKILLS

React.js, Bootstrap, Tailwind
JavaScript
HTML5, CSS, Sass
Jest, Cypress
Git, Github
Node.js, Express, Postman
MongoDB, Mongoose

SOFT SKILLS

- Fast learning
- Team work
- Problem solving
- Adaptability

LANGUAGES

- Spanish: native
- Catalan: native
- English: B2

EDUCATION

Software Engineering
Universitat Politècnica de Catalunya (UPC)
2017 – 2023

Web Development FullStack Bootcamp
Udemy
August 2022 – December 2022

Technologies I would like to learn

Redux

TypeScript
